

WIRELESS COMPUTER HEADSET

WITH NOISE CANCELING MICROPHONE AND DIGITAL AUDIO ENHANCEMENT SOFTWARE

Music Listening

VOIP

Video Conferencing

Computer Gaming

Speech Recognition

Hi Fidelity 40mm speaker drivers with acoustic bass expansion

Wireless USB soundcard with digital sample rates for high definition audio

PureAudio digital noise reduction for enhancing both microphone and speaker communications

MIC INPUT	STEREO OUTPUT
<ul style="list-style-type: none"> •Noise Cancellation: 5 dB/octave •Frequency Range: 100-10,000Hz •Signal-to-Noise Ratio: >60dB •Sensitivity at 1kHz: -44dB (0 dB = 1V/PA) •Current Consumption: <0.5 mA •THD + N: -76d B 	<ul style="list-style-type: none"> •Frequency Range: 50-20,000Hz •Coil Resistance: 32 ohm •Sound Output from 1 KHz 1mW Input: 114dB (0 dB=20uPa) •Max. Input Power: 40mW •THD + N: -71dB <p>CONNECTION</p> <ul style="list-style-type: none"> •Wireless USB transmitter •Operating distance: 30 feet •2.4 GHz ISM band with 2 MHz bandwidth •GFSK digital modulation •THD+N: -71db •SNR: 84db •Sampling rate: Stereo audio - 32KHz 16bit Mono voice - 16KHz 16bit

WIRELESS USB SOUNDCARD

FOLDS FLAT

CARRYING CASE

AUDIOCOMMANDER SOFTWARE

An intuitive graphical user interface that controls the headsets noise cancellation, speaker equalization and Digital Audio Recording features.

*AUDIO FILTERS FOR PC AND MAC
